SCIENCE BASED TARGETS INITIATIVE VALIDATES AUTOSTRADE PER L'ITALIA'S GREENHOUSE GAS REDUCTION TARGETS

Rome, 9 September 2022 – Another important step in the path of Sustainability that further strengthens Autostrade per l'Italia's investment plan: Science Based Targets initiative (“SBTi”) has validated Autostrade per l'Italia's greenhouse gas reduction targets, confirming that our Scope 1 (direct greenhouse gas emissions) and Scope 2 (indirect emissions from energy use).

The Science Based Targets initiative is a partnership between CDP (formerly the Carbon Disclosure Project), the United Nations Global Compact, World Resources Institute (WRI) and World Wildlife Fund for Nature (WWF). SBTi helps businesses set ambitious science-based targets to curb the global temperature rise.

And specifically, Autostrade per l'Italia has committed to:

- cutting our absolute Scope 1 and 2 greenhouse gas emissions by 67.8% by 2030 compared with 2019;
- reducing Scope 3 greenhouse gas emissions (other indirect emissions) by 52% for every million euros invested in modernisation of the network operated under concession, and cutting Scope 3 emissions from goods and services purchased for use in Amplia Infrastructures' non-captive construction business by 55%.
